NEWS OF THE WHEELMEN.

A NEW RECORD FOR TEN CENTURIES MADE BY WILLIAM BROWN.

He Completes His Grind on the Bond in 83 Hours 4 1-2 Minutes-He Was a Consumptive Who Took to the Wheel for Exercise-Rival Century Riders at Peace. with his hands begrimed and his chops saily in need of a barber's attention William Brown of the Nassau Wheelmen finished a ride of ten continuous centuries at 7:04:30 last night. Then he got off his wheel, went across the road, was weighed, walked back to the hotel was stripped and scrubbed, and while undergoing a vigorous massage he talked

to a reporter of THE SUN about the events of Saturday and other days during his ride. This was the same man who was pronounced a galloping consumptive a couple of years ago. He finished the 1,000 miles in the clapsed time of 83 hours and 4% minutes, which was 7 hours and 7% minutes better than Rivierre's record of 90 hours and 15 minutes. Brown's time for each successive century, which is a new record for 500 miles

and upward, is as follows:

bigger crowd present than at any of the pro-vious record performances that have finished recently at Valley Stream. From three hundred to five hundred persons were present. About all the men and women who ent. About all the men and women who have made themselves conspicuous by extraordinary road riding were in the crowd. The Century Road Club took out accutury yesterday of about ninety and they stopped at the checking point when Brown was forty miles from his 1,000. Some of them remained and joined the others who were more interested in the long record-breaking paint then they were in the pleasure trip of 100 miles. One of the features of the day was the reconciliation effected be tween Miss Yatman and Mrs. Lindsay. Gab-Cohn of the Vigitant Wheelmen brought them together and while they did not kiss or shake hands they agreed that their jealousy and bit terness was not a matter of fact, but of talk and they chatted formally for several minutes. In contrast with the feeling between the women was that manifested between the men women was that manifested between the men who are rivals for road records. George E. Rivierre, who held the record for Logon miles antii Brown finished, was one of Brown's pace-makers last night and rode the last lap with him, thereby helying to break his own record. Rivierre said that he would start the latter part of next week and try to break Brown's record.

concerning the statement in The Sun of pesterday made by Brown that he was a consumptive a couple years ago, there was much surprise expressed. After he had finished his 1,000 miles and was being rubued last night the reporter asked him if what he had said on saturday was correct. He answered: "Why, certainly. The doctors had given me up. One told me to take to the wheel. You can ask my loke, if you don't believe me. I remember what I said to you vesterday. Say, don't forget to meation thouse boys at Freeport who waited for me every iap and pulled me along to Hempstead. I don't know what I would have done without them.

for me every jap and pulled me along to Hempstead. I don't know what I would have done without them."

At the end of 500 miles Brown had lost five pounds, but at the finish of the 1,000 miles he weighed only one pound less than when he started. His temperature at the finish was 199 and his pulse 78. He was put to sleep for a few hours. The doctor who attended him from the beginning, said that Brown was chafed and saddle sore, had a sore throat, and was tired and weak from loss of sleep but that these were all temporal and trivial troubles, while really he was in excellent condition. While on the last lap Brown fell, or rather toppled and was obliged to dismount because of reaching too far for some egg poog that was being handed to him. He atte bananas, oranges and meat during his last 100 miles. His total sleep during the ride was 6 hours and 45 minutes. The rest he took without sleep amounted to 4 hours and 40 minutes off the wheel sleep 80 clock on last Thursday morning.

At Vallsburg yesterday the paced race between A. W. Ross and J. P. Jacobson was a fizite because Jacobson punctured a tire and quit in the seventh mile whon Ross was half a line ahead. The oursuit race between Otto Miya and Archie MeEachren, which the latter won, was the leature of the day. I was nipsed tuck until the last mile, in which McEachren wore Maya down. Summaries:

At the one-mile track at Guttenburg yester-day another attempt was made to run success-ful bleyele races. A fifty-mile contest between amateur cracks was scheduled. Although not syowed professionals they asked that the amateur cracks was scheduled. Although not avowed professionals they asked that the prizes be exhibited in advance. W. C. Berg, under whose name as manager all the races have been conducted, did not produce the prizes. The contestants refused to race. Several hundred spectators demanded their money back. Berg was not to be found. The would-be spectators went away.

Attracted by six prizes of silverware, thirty wheelmen started in a road race yesterday afternoon from Libbern's Hotel, Jerome avenue. The race was over a fifteen-mile course and the racers were at times considerably interfered with by the large number of turnouts and tourists strong out along the avenue. This militated against the back markers, but in spite of all drawbacks two of the scratch men secured prizes. The order of finish of the leaders was, John F. Blackman, 5 minutes, first; B. Dammann, 4 minutes, second; J. Newcorn, 3 minutes, third: George Holzsharer, scratch, fourth; W. Syveil, 1 minute, fifth; Wegenter, scratch, sixth; A. Bauer, 1 minute, seventh. Time, 40 minutes.

COLLEGE BOYS TO GOLF.

Team and Individual Championships at At Garden City this week the intercollegiate team and individual champlonships will be the feature in golfing. The trophy played for is the Ardsley Club Cup, to go to the team winning out three times. Yale has won twice and Harvard, the present holder, once. Each had to be held at Ardsley, and, to more quickly fulfil the conditions, the collegians have held the contests semi-annually. But, beginning with this week's contest, the championship will take place only once a year. On descrition of the Ardsley links, but the move is frompted solely by the love of change. The ecision to play at the Garden City course will be endorsed by all who admire good goifing. The makeup of three of the teams, Yale, Columbia and Princeton, was published in THE Sux of Saturday. Harvard's team will contain Joseph H. Choate, Jr. and W. Bayard Cutting, It. both of whom are abroad, and James F. Curtis, who has taken his degree. On paper the team seems an unusually atrong one, for its new men have gilt-edged records. Only two of the old players, G. C. Clark, Jr. and J. Richardson, the former Lakewood High School erack, and the other two will be chosen from Lockwood, Tucker, Henderson and Wadsworth, a quartet of splendid players. A new manner of scoring will be tried in the team acdified form is that it throws a mask over inincidified form is that it throws a mask over in-capacity. Such modifications have been tried—realty in the district named will increase apitent Britain, but only to be rejected as for- preclably. eign to the less interests of the game. Last

lieved to be the placing by the committee, in all the former contests has brought Yale against Columbia and Harvard against Princeton in the first round.

H. M. Way, the Detroit Country Club professional, well deserves the highest honors of the senson, for, after being second to Will Smith in the open championship last week, he did the victor up in the tournament at Grand Rapids, Mich., acoring 150 to Smith's 155. Way has also beaten Bernard Nichols of the Philadel-phia Country Club in a home-and-home match.

There will be open tournaments this week at the Scranton Country Club and the Chevy Chase Golf Club. The metropolitan players will be represented at both events. Aside from Garden City, the chief feature in local golf will be the contests at the Morris County Golf Club, week. The schedule follows:

week. The schedule follows:
Monday-Waterbury cups, women's handleap foursomes, qualification round, at eighteen holes. The aday-Semi-final and final rounds at match play for Waterbury cups.
Wesinesday-Tenth competition, at eighteen holes handleap medal play, for the "Long Course" Cup, and qualifying score round for the women's club championship. Thur day -First round at match play for women's championship. Fr.day—Semi-finals for women's championship. Saturday—Man's championship, thirty-six holes metal play, for custody of the championship medal.

Through an error in the announcements the cam to be competed for on next Saturday at the Dyker Meadow Golf Club was said to be offered by George B. Abbott. The donor, however, is Laurence F. Abbott. The competition is to be an eighteen-hole match against boxle, in the contest for the Governor's Cup on election day the Dyker Meadow Golf. Club has offered a second prize, and F. Coit Johnson gives a cup for the best gross score.

Out of the twenty-three golfers who went to the score at the country club-house grounds of the Crescent A. C. on Saturday in the play for the President's Cup seventeen were able to finish. Dr. B. W. Bierbauer led in the medal play with 82. He is a Class B player. This is the best

THE BEAL ESTATE MARKET.

The appearance of a delegation of property owners from Washington Heights before Mayor Van Wyck last Wednesday, to ask that some-thing be done for that section of the city in the way of street improvements, calls attention to the condition now obtaining in the upper part of the Twelfth ward militating against the interests of real estate there.

The different transportation lines are in part reaponsible for the unremunerative condition frealty. The Amsterdam avenue line of the Third avenue Ratiroad Company is undergoing a change of motive power from the cable to e'cetricity, and that thoroughfare is tern up from end to end. This is, of course, necessary in a degree, but it is the feeling of property owners along the line that the road should be completed in sections, so that the electric sermember of the winning team receives as a vice may be given as quickly as possible. On This section of the road is nearly completed, the surface it looks like a somewhat hasty but the condition of the avenue has already had a batteffect on rents along it. While the rent-ing season was in full blast the avenue was torn up, and the work on it was so slow that prospective tenants were deterred from taking

apartments and houses.

Another transportation question of importance to the residents of the district north of some new men, who will take the place of 125th street is that of the projected electric line along the Boulevard or as it now is, Broadway. The franchise for this line was passed by the Municipal Assembly and signed by the Mayor. It is now before the Board of Estimate. and Apportionment where it has been for some months. The sanction of the board would per-G. Averill, will be retained. The new ones are mit the beginning of work on the road which Gardiner G. Hubbard, one of the eight or ten will materially benefit real estate interests leading amateurs of the country; C. Tiffany along its line. When completed the road will run from 125th street to Kingsbridge. The immense tract of land lying between Fort George and the Harlem ship canal is at present unprovided with any form of transportation facilities worthy the name, but when the Third matches. The "luck of the in its statement. The bearing of these imdraw," the suphonious term for what is be- provements on realty is plain. The Washing-

ton Heights section has been neglected in these respects in the opinion of property holders and they think that the section is of enough importance in the general economy of the city to compel more attention from the different departments. The first six months of the present year showed an increase in inhabitants for the Twelfth ward of about 23,000 persons and the amount of building in the upper part of it shows that some of this increase is to be

found there. The completion of the Amsterdam avenue ine in sections and the granting of a franchise for the Boulevard line are essential to the present development of the upper districts of

The building statistics, which include the operations in the Twenty-third and Twenty-fourth wards, show that there has been an increase of about 1.56 per cent. over the figures of last year as regards value. This gain is accounted for in part by the numerous sky-scrapers begun within the period taken. The table, which follows, shows the building by districts. It is interesting to note that no private dwellings were planned in the district south of Fourteenth street. This was also true of 1838.
